

# STOP CELL PHONE TRAFFICKING.

## DON'T RISK LEGAL ACTION.

**At TracFone, we take the unauthorized resale and hacking of our prepaid mobile phones very seriously.**

Purchasing prepaid wireless phones from stores to resell or hack them is trafficking. Don't risk legal action. We've filed numerous lawsuits nationwide against those involved and will continue until it stops. Our business is about helping people connect affordably with the least expensive way to own a cell phone in America. It's not about helping traffickers.

If you know anyone purchasing prepaid wireless phones and reselling or hacking them, warn them TracFone will take legal action if they are not an authorized TracFone or Net10 prepaid phone dealer. Report traffickers anonymously at TracFone's Toll-Free Hotline at (866) 806-1838, or by email at [TracFone.Security@TracFone.com](mailto:TracFone.Security@TracFone.com) or on the Web at

**END** 

The word "END" is written in a large, bold, sans-serif font. To its right is a circular symbol containing a diagonal slash, which is a common icon for "end of call" or "hang up".
